SUBJECT: NOTICE OF VIOLATION (NOV); SMARTS WDID 2011022584 AND  
CORRECTIVE ACTIONS

Dear Mr. Shen:

Thank you for submitting the revised Storm Water Pollution Prevention Plan (SWPPP) July 30, 2010 for your facility located at 2020 Williams Street, San Leandro, CA 94577. We have completed a review of the SWPPP submitted and have the following comments and findings.

A Storm Water Pollution Prevention Plan (SWPPP) was submitted as described in provision A.3 of the NOV and our letter of July 8, 2010. However, the plan is not acceptable for the reasons stated below. **Your SWPPP must be corrected and resubmitted by August 30, 2010.** Uni-Poly, Inc. remains out of compliance until an acceptable SWPPP is submitted.

## SWPPP Required Modifications and Comments

The following technical analysis cites your submitted SWPPP prepared by Otis Institute and dated July 29, 2010.

Page 13: Rail Car Unloading - The SWPPP concludes that the rail car unloading area is protected from stormwater contact. This is an inaccurate statement. Although covered, this area is not fully enclosed. Wind blows the resin materials out from under the cover, rain blows under the cover, there is stormwater run-on into the area, and there is a storm drain in the area. This comment was made in our July 8 letter and not addressed.
