

8/21/99

Mr. Thompson,

Please don't let  
Biosolids or Studge  
come to the Antelope  
Valley. It's not a good  
thing. Please.

29-1

Thank you  
Bonni Lane

- 29-1. The commenter's opinion is noted. The EIR prepared for the proposed GO has concluded that, with mitigation measures, the land application of biosolids can be undertaken in a manner that would not result in significant effects on the environment or public health.
