

“Climate Change 101”

Climate Change and its Impacts on California

A seminar series for non-specialists on the science, technology and policy aspects of climate change

Presented by

The Department of Land, Air and Water Resources, UC Davis
 John Muir Institute of the Environment, UC Davis
 Air Quality Research Center, UC Davis
 The UC Institute for Research on Climate Change and its Societal Impacts

What: A coordinated series of talks covering aspects of climate change science relevant to State policy formulation.

Where: CalEPA Building, 1001 I St., Sacramento

When: Every other Thursday at noon, starting January 17

Contacts:

Prof. Terry Nathan
 (trnathan@ucdavis.edu)

Dr. Philip Duffy
 (pduffy@lnl.gov)

Sandwiches and refreshments will be available at the seminars.
