Subject: NOTICE OF PUBLIC WORKSHOP ON SUCTION DREDGE MINING

6/12/07 Workshop
Suction Dredge Mining
Deadline: 6/22/07 Noon

To Whom It May Concern,

I will be unable to attend the meeting but request that my thoughts be considered. I have been a miner for 20 years within the state of CA. I would have to state that "we" as miner's do more to protect our waters, fish, and resources that have been given credit for. I can't say how much trash that I have removed from other water activities, camping, boating, etc. We enjoy the outdoors and I assure you that I have cleaned up far more of our community land than all other users combined.

Please, I ask you to consider your options very carefully and to become part of one of the various mining operations to see what - NO IMPACT - mining does cause.

I am opposed to any concerted effort to restrict our operations.

Regards,
Brian Hach
