<sup>1</sup> Notice of Filing submitted under California Code of Regulations, title 23, section 3779.

## **BACKGROUND**

The State Water Board is considering amendments to the Ocean Plan and the ISWEBE Plan to adopt procedures for discharges of dredged or fill material to waters of the state (proposed Procedures). The proposed Procedures consist of the following components: (1) a wetland definition, (2) wetland delineation procedures, and (3) procedures for applications, and the review and approval of Water Quality Certifications, Waste Discharge Requirements, and waivers of Waste Discharge Requirements for dredged and fill activities.

The State Water Board developed the proposed Procedures to address several important issues. First, there is a need to strengthen protections for waters of the state that are no longer protected under the Clean Water Act (CWA) due to U.S. Supreme Court decisions. Second, there is inconsistency across the Water Boards in requirements for discharges of dredged or fill material into waters of the state, including wetlands. There is no single accepted definition of wetlands at the state level, and the Water Boards may have different requirements and levels of analysis with regard to the issuance of dredge or fill Orders. Third, current regulations have not been adequate to prevent losses in the quantity and quality of wetlands in California, where there have been especially profound historical losses of wetlands.

The proposed Procedures have been previously referred to by the State Water Board as the Water Quality Control Policy for Wetland Area Protection and Dredged or Fill Permitting. However, for administrative purposes, the decision was made to convert the policy into amendments to the Ocean Plan and the ISWEBE Plan. The title has been updated to better communicate to the public that the proposed dredge and fill procedures apply to all waters of the state, including both waters of the United States and waters of the state outside of federal jurisdiction, not just to wetlands. Please note that these procedures would not apply to suction dredge mining activities for mineral recovery.

## **DOCUMENT AVAILABILITY**

The proposed Procedures and related documents and information are available on the State Water Board's web site at:

Couriers delivering hard copies of comment letters must check in with lobby security personnel, who can contact Ms. Townsend at (916) 341-5600.

### **PROCEDURAL MATTERS**

At the July 19<sup>th</sup> public hearing, there will be no sworn testimony or cross-examination of participants. However, the State Water Board and its staff may ask clarifying questions. At the hearing, participants will be given an opportunity to summarize and supplement their written materials with oral presentations. To ensure a productive and efficient hearing in which all participants have an opportunity to participate, oral presentations may be time-limited. For other presentation recommendations, go to:

[http://www.waterboards.ca.gov/board\\_info/meetings/board\\_presentations.shtml](http://www.waterboards.ca.gov/board_info/meetings/board_presentations.shtml).

The State Water Board will schedule a subsequent meeting to consider adoption of the proposed Amendments.

### **CALIFORNIA ENVIRONMENTAL QUALITY ACT**

This is to advise that the State Water Board is proposing to adopt or amend the Ocean Plan and the forthcoming ISWEBE Plan in accordance with a regulatory program exempt under Section 21080.5 of the Public Resources Code from the requirement to prepare an environmental impact report under the California Environmental Quality Act (Public Resources Code Section 21000 et seq.) and with other applicable laws and regulations.
