

## **Appendix E: Summary of NPDES Permits for Urban Runoff by 303(d)-Listed Reservoir Watershed**

---

The attached table, provided as a Microsoft Excel worksheet, summarizes the types and number of NPDES permits that regulate urban runoff in the watersheds of 303(d)-listed mercury-impaired reservoirs. The table identifies:

- The individual NPDES area-wide permits for Phase 1 MS4s intersected by the watersheds of 303(d)-listed reservoirs
- The number of communities and counties with MS4s regulated by the statewide permit for Phase II small MS4s intersected by the watersheds of 303(d)-listed reservoirs
- The number of permittees actively enrolled in the statewide general permits for industrial and construction activities

The attached maps illustrate the location of Caltrans Districts and industrial and construction permittees.

Please see Section 6.5 in Chapter 6 (Source Assessment) for additional information.
