

## List of Watershed Assessments and Watershed Restoration Plans

Within 6 months of adoption of this Waiver, each national forest shall provide to the Executive Director of the State Water Board for inclusion in Attachment B to this Waiver, a list of watersheds, including the watershed name and the date the watershed assessment and/or watershed restoration plan (including legacy site identification, prioritization, and scheduling) was completed or is scheduled for completion. This list shall be updated annually as necessary.

A summary of sediment source inventories follows:

**SUMMARY OF USFS ACCOMPLISHMENTS RELATED TO SEDIMENT-SOURCE  
 INVENTORIES AND WATERSHED RESTORATION  
 IN NATIONAL FORESTS IN CALIFORNIA  
 2002 to 2009**

Forest	Watersheds	Road sediment inventories					
		Road Miles	Landslide Inventories (no.)	Road decommissioning (miles)	Trail Decommissioning (miles)	Road stormproofing (miles)	Erosion prevented (cubic yards)
Six Rivers	18	1,622	13,579	128		116	538,910
Klamath		353		220		180	
Shasta-Trinity	12	1,442		153	69	87	
Mendocino	36			10		100	
Plumas							
Eldorado							
Stanislaus							
Sierra							
Sequoia							
Modoc							
Lassen							
Tahoe							
Inyo							
Lake Tahoe Basin MU							
Humboldt-Toiyabe							
Los Padres							
Angeles							
San Bernardino							
Cleveland
