Subject: Monitoring and Reporting Program
El Segundo Power, LLC
No. 4667 January 2008 Monthly Report and 2008 Annual Report

MONTHLY REPORT

Attached are the test results obtained from the required sampling stations during the month of January 2009. This is in compliance with the requirements as set forth in the NPDES Permit Number CA0001147, California Regional Water Quality Control Board, Los Angeles Region Order Number 00-084, covering wastes discharged at El Segundo Power LLC. Please refer to compliance file CI 4667.

Analyses were conducted at a laboratory certified for such analyses by the State Department of Health Service or approved by the Executive Officer and in accordance with current EPA guideline procedures or as specified in the Monitoring Program.

All test results contained in this report are within the specified limits for each parameter. There were no Metal Cleaning Wastes nor was there any Non-Metal Cleaning Wastes discharged for the month of January 2009. There were no hazardous waste manifests generated from El Segundo Power LLC for the month of January 2009. For the month of January 2009, the effluent of Sanitary Waste Treatment Plant # 1 was routed to Discharge Point #002. This was done to reduce once thru cooling water flow and reduce power. There was no chlorination performed on Discharge Point #001 for the month of January 2009.

2008 ANNUAL REPORT

As part of the annual report please find the tabular and graphical summaries of the monitoring data obtained during the year 2008. Also included are copies of ELAP certifications for all laboratories used by El Segundo Power, LLC. In addition, please find a hazardous materials summary for year 2008. The following is a compilation for the year 2008:

UNITS 1 & 2

On January 1, 2003, Units 1 & 2 ceased commercial operation. The units 1 & 2 once thru cooling water system continues to remain in operation. Chlorination of the Units 1 & 2 Circulating Water System terminated at the end of February 2008. The NPDES Monitoring and Reporting Program for #001 continues without interruption.

DISCREPANCIES

On Discharge Point #001 for the 1st the Chronic Toxicity Tests were not performed. On August 4, 2008 (3rd quarter) and November 3, 2008 (4th quarter) Chronic Kelp Germination Toxicity Bioassays had a TUC of 16 and NOEC 6%. However, on both occasions there was 0 MGD discharge flow on Discharge Point #001. On November 25, 26, 27, 2008, Chronic Kelp Germination Toxicity Bioassays were conducted on a daily basis with 51.8 MGD flow. The results of the tests were a TUC of 1 and NOEC 100%. It is El Segundo Power, LLC contention that the lack of flow (0 MGD) caused the failure of Chronic Toxicity Bioassays, although there was no discharge represented by the August 4, 2008 and November 3, 2008 samples. On August 25-29, 2008, a loss of the PI data server caused an inadvertent loss of historical in plant monitoring data. Temperature data was obtained for this period of time via load data. Flow data during this time was obtained by pump run time. During the loss of the PI server the Bailey Digital Control System was in service monitoring all critical plant parameters. No permit exceedances occurred as a result of the loss of this data.

WATERBOARD INSPECTIONS

On May 21, 2008, Carol Leuong of Tetra Tech. inspected El Segundo Power, LLC under the auspices of the U.S.E.P.A. and the Los Angeles Regional Water Quality Control Board.

SANITARY TREATMENT PLANTS

For the first six months of 2008 Sanitary Treatment Plant #2 was routed to Sanitary Treatment Plant #1. For the second six months Sanitary Treatment Plant #1 was routed to Sanitary Treatment Plant #2. This was done to reduce once thru cooling water flow at Units 3 & 4 and to conserve energy.

HEAT TREATS

No heat treats were conducted on discharge point 001 during 2008. On August 29, 2008 a heat treat was conducted on discharge point #002. The maximum temperature attained was 111.2 degrees F. On September 25, 2008, a heat treat was conducted on discharge point # 002. The maximum temperature attained was 106.8 degrees F. All heat treats conducted were within permit limits.

METAL CLEANING WASTES

There were no Metal Cleaning Wastes discharged during the year 2008.

NON-METAL CLEANING WASTES

There were no Non-Metal Cleaning Wastes discharged during the year 2008.

STORM WATER

The annual Storm Water report was submitted in June 24, 2008.

DMR-QA

As directed by the NPDES Permit, El Segundo Power, LLC participated in the annual DMR-QA study. Not-Acceptable values were given on a few parameters. These were all corrected.

KELP MONITORING

El Segundo Power, LLC voluntarily participated the regional Kelp Monitoring study.

OTHER MONITORING

As directed in the NPDES Permit, El Segundo Power, LLC conducted quarterly Chronic Toxicity Bioassay, Semi-annual metals, and annual effluent and Retention Basin Priority Pollutants monitoring.

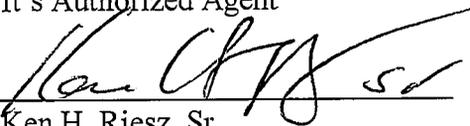

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. "I am aware that there are significant penalties for submitting false information, including the possibility, of a fine and imprisonment for knowing violations."

If you should have any questions regarding this report please contact Alex Sanchez at 310.615.6351.

Executed on the 24th day of February 2009, at the El Segundo Generating Station.

Sincerely,

El Segundo Power, LLC

Subject: Monitoring and Reporting Program
El Segundo Power, LLC
No. 4667 January 2008 Monthly Report and 2008 Annual Report

MONTHLY REPORT

Attached are the test results obtained from the required sampling stations during the month of January 2009. This is in compliance with the requirements as set forth in the NPDES Permit Number CA0001147, California Regional Water Quality Control Board, Los Angeles Region Order Number 00-084, covering wastes discharged at El Segundo Power LLC. Please refer to compliance file CI 4667.

Analyses were conducted at a laboratory certified for such analyses by the State Department of Health Service or approved by the Executive Officer and in accordance with current EPA guideline procedures or as specified in the Monitoring Program.

All test results contained in this report are within the specified limits for each parameter. There were no Metal Cleaning Wastes nor was there any Non-Metal Cleaning Wastes discharged for the month of January 2009. There were no hazardous waste manifests generated from El Segundo Power LLC for the month of January 2009. For the month of January 2009, the effluent of Sanitary Waste Treatment Plant # 1 was routed to Discharge Point #002. This was done to reduce once thru cooling water flow and reduce power. There was no chlorination performed on Discharge Point #001 for the month of January 2009.

2008 ANNUAL REPORT

As part of the annual report please find the tabular and graphical summaries of the monitoring data obtained during the year 2008. Also included are copies of ELAP certifications for all laboratories used by El Segundo Power, LLC. In addition, please find a hazardous materials summary for year 2008. The following is a compilation for the year 2008:

UNITS 1 & 2

On January 1, 2003, Units 1 & 2 ceased commercial operation. The units 1 & 2 once thru cooling water system continues to remain in operation. Chlorination of the Units 1 & 2 Circulating Water System terminated at the end of February 2008. The NPDES Monitoring and Reporting Program for #001 continues without interruption.

DISCREPANCIES

On Discharge Point #001 for the 1st the Chronic Toxicity Tests were not performed. On August 4, 2008 (3rd quarter) and November 3, 2008 (4th quarter) Chronic Kelp Germination Toxicity Bioassays had a TUC of 16 and NOEC 6%. However, on both occasions there was 0 MGD discharge flow on Discharge Point #001. On November 25, 26, 27, 2008, Chronic Kelp Germination Toxicity Bioassays were conducted on a daily basis with 51.8 MGD flow. The results of the tests were a TUC of 1 and NOEC 100%. It is El Segundo Power, LLC contention that the lack of flow (0 MGD) caused the failure of Chronic Toxicity Bioassays, although there was no discharge represented by the August 4, 2008 and November 3, 2008 samples. On August 25-29, 2008, a loss of the PI data server caused an inadvertent loss of historical in plant monitoring data. Temperature data was obtained for this period of time via load data. Flow data during this time was obtained by pump run time. During the loss of the PI server the Bailey Digital Control System was in service monitoring all critical plant parameters. No permit exceedances occurred as a result of the loss of this data.

WATERBOARD INSPECTIONS

On May 21, 2008, Carol Leuong of Tetra Tech. inspected El Segundo Power, LLC under the auspices of the U.S.E.P.A. and the Los Angeles Regional Water Quality Control Board.

SANITARY TREATMENT PLANTS

For the first six months of 2008 Sanitary Treatment Plant #2 was routed to Sanitary Treatment Plant #1. For the second six months Sanitary Treatment Plant #1 was routed to Sanitary Treatment Plant #2. This was done to reduce once thru cooling water flow at Units 3 & 4 and to conserve energy.

HEAT TREATS

No heat treats were conducted on discharge point 001 during 2008. On August 29, 2008 a heat treat was conducted on discharge point #002. The maximum temperature attained was 111.2 degrees F. On September 25, 2008, a heat treat was conducted on discharge point # 002. The maximum temperature attained was 106.8 degrees F. All heat treats conducted were within permit limits.

METAL CLEANING WASTES

There were no Metal Cleaning Wastes discharged during the year 2008.

NON-METAL CLEANING WASTES

There were no Non-Metal Cleaning Wastes discharged during the year 2008.

STORM WATER

The annual Storm Water report was submitted in June 24, 2008.

DMR-QA

As directed by the NPDES Permit, El Segundo Power, LLC participated in the annual DMR-QA study. Not-Acceptable values were given on a few parameters. These were all corrected.

KELP MONITORING

El Segundo Power, LLC voluntarily participated the regional Kelp Monitoring study.

OTHER MONITORING

As directed in the NPDES Permit, El Segundo Power, LLC conducted quarterly Chronic Toxicity Bioassay, Semi-annual metals, and annual effluent and Retention Basin Priority Pollutants monitoring.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. "I am aware that there are significant penalties for submitting false information, including the possibility, of a fine and imprisonment for knowing violations."

If you should have any questions regarding this report please contact Alex Sanchez at 310.615.6351.

Executed on the 24th day of February 2009, at the El Segundo Generating Station.

Sincerely,

El Segundo Power, LLC

RE:ESGS

Work Order No.: 0901083

Attached are the results of the analyses for samples received by the laboratory on 01/07/09 16:45.

The samples were received by Sierra Analytical Labs, Inc. with a chain of custody record attached or completed at the submittal of the samples.

The analyses were performed according to the prescribed method as outlined by EPA, Standard Methods, and A.S.T.M.

The remaining portions of the samples will be disposed of within 30 days from the date of this report.
If you require any additional retaining time, please advise us.

Sincerely,

Richard K. Forsyth

Laboratory Director

Sierra Analytical Labs, Inc. is certified by the California Department of Health Services (DOHS),
Environmental Laboratory Accreditation Program (ELAP) No. 2320.

CASE NARRATIVE

SAMPLE RECEIPT: Samples were received intact, at 4 °C, and accompanied by chain of custody documentation.
PRESERVATION: Samples requiring preservation were verified prior to sample preparation and analysis.
HOLDING TIMES: All holding times were met, unless otherwise noted in the report with data qualifiers.
QA/QC CRITERIA: All quality objective criteria were met, except as noted in the report with data qualifiers.

The results in this report apply to the samples analyzed in accordance with the chain of custody document. This analytical report must be reproduced in its entirety.

Certificate No 1949

SHAWN SIMMONS
POWER PRODUCTION CHEMICAL, SOUTHERN CALIFORNIA EDISON
7301 FENWICK LANE, 2nd FLOOR
WESTMINSTER, CA 92683-5202

Dear SHAWN SIMMONS:

This is to advise you that the laboratory named above continues to be certified as an environmental testing laboratory pursuant to the provisions of the California Environmental Laboratory Improvement Act (Health and Safety Code (HSC), Division 101, Part 1, Chapter 4, Section 100825, et seq.). Certification for all currently certified Fields of Testing that the laboratory has applied for renewal shall remain in effect until **11/30/2009** unless revoked.

Please note that the renewal application for certification is subject to an on-site visit, and continued use of the certificate is contingent upon:

- * **successful completion of the site visit;**
- * **acceptable performance in the required proficiency testing (PT) studies;**
- * **timely payment of all fees, including an annual fee due before November 30, 2008;**
- * **compliance with Environmental Laboratory Accreditation Program Branch (ELAP) statutes (HSC, Section 100825, et seq.) and Regulations (California Code of Regulations (CCR), Title 22, Division 4, Chapter 19).**

An updated "Approved Fields of Testing" will be issued to the laboratory upon completion of the renewal process. The application for the next renewal must be received 90 days before the expiration of this certificate to remain in force according to the CCR, Section 64801 through 64827.

Please note that the laboratory is required to notify ELAP of any major changes in the laboratory such as the transfer of ownership, change of laboratory director, change in location, or structural alterations which may affect adversely the quality of analyses (HSC, Section 100845(b)(d)). Please include the above certificate number in all your correspondence to ELAP.

If you have any questions, please contact Wanda Porter at (510) 620-3159.

Sincerely,

George C. Kulasingam, Ph.D., Chief

Dear Mr. Simmons:

Thank you for your April 26, 2000 letter describing your laboratory's policy for the field measurement of pH and Res Cl₂.

It is the opinion of the program that field measurement by qualified staff from your laboratory is appropriate for these specific analytes.

These tests may be performed in the field but must be performed by an accredited laboratory.

Sincerely,

A handwritten signature in black ink, appearing to read "Richard Spinner".

STATE OF CALIFORNIA
DEPARTMENT OF PUBLIC HEALTH
ENVIRONMENTAL LABORATORY ACCREDITATION PROGRAM

ENVIRONMENTAL LABORATORY CERTIFICATION

Is hereby granted to

AQUATIC BIOASSAY & CONSULTING LABORATORIES, INC.

29 NORTH OLIVE STREET
VENTURA, CA 93001

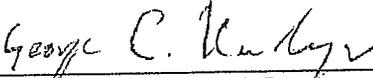

Scope of certification is limited to the
"Accredited Fields of Testing"
which accompanies this Certificate.

Continued certification status depends on successful completion of site visit,
proficiency testing studies, and payment of applicable fees.

This Certificate is granted in accordance with provisions of
Section 100825, et seq. of the Health and Safety Code.

Certificate No.: 1907
Expiration Date: 07/31/2009
Effective Date: 07/01/2007

Richmond, California
subject to forfeiture or revocation

George C. Kulasingam, Ph.D.
