Subject: Comment Letter-Malibu Septic Prohibition

Dear State Water Resources Board,

The ban on septic tanks is a good decision and they should have been banned 30 years ago. I grew up in the Malibu Colony and have been in Malibu 54 years. Not only should the tanks be banned but something should be done about the Malibu shopping centers near Malibu Creek because during the summer, it stinks like the worst third world city you can imagine with raw sewage frequently overflowing into the parking lots.
