UNITED STATES AND MEXICO

OFFICE OF THE COMMISSIONER
UNITED STATES SECTION

JAN 25 2007

Logan Raub
California Regional Water Control Board – Region 7
73-720 Fred Waring Drive, Suite 100
Palm Desert, CA 92260

Subject: List of impaired waters and surface water quality assessment

Dear Mr. Raub:

The International Boundary and Water Commission, United States Section (USIBWC) has received the “Notice of Solicitation of Water Quality Data and Information for 2008 Integrated Report” dated December 4, 2006 requesting water quality information for surface waters of California. The USIBWC currently works with Region 7 staff in collecting and analyzing water quality data in Alamo River, New River and Colorado River. This shared data is currently being used by the Control Board and is also being used by the USIBWC for water quality reports that are provided to our constituents along the border and with agencies in Mexico.

The USIBWC would like to also be involved in reviewing the draft regional list and water quality assessment to provide our comments in the areas of shared interest. Please include me as a reviewer for the aforementioned rivers at the enclosed address. If you have any questions, please contact me at (915) 832-4702 or via email to gilbertanaya@ibwc.state.gov.

Sincerely,

Gilbert G. Anaya
Supervisory Environmental Protection Specialist
Environmental Management Division
