City of Oceanside Comment Letter – Mobil Station 18-AED Proposed Case Closure

Dear Ms. Gomez-Latino:

The City of Oceanside has six active municipal water supply wells within a one mile radius of the Mobil station 18-AED at 3945 Mission Avenue. These wells are located at or adjacent to 215 Fireside Drive. These municipal wells are currently used to provide 15% of the City's potable water supply, and increases in production are planned. The City has concerns about the fate of the MTBE plume that has been detected at MW-19 and the potential for further migration and contamination of the municipal wells. The City requests that the potential for the plume to impact the municipal supply wells be addressed.

Thank you for your consideration of this request. If you have any questions or need more information, please contact me at 760-435-5948 or by e-mail at [mhammond@ci.oceanside.ca.us](mailto:mhammond@ci.oceanside.ca.us).

Sincerely,

Mark Hammond  
Compliance Officer
