Sacramento, California 95814

Re: Proposed Recycled Water Policy

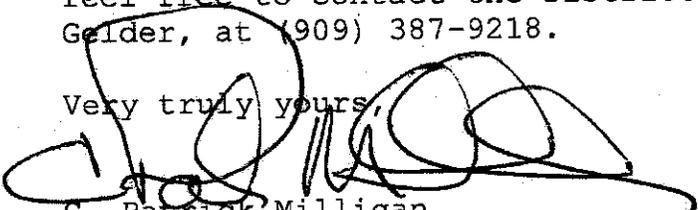

Dear Chair Doduc:

The San Bernardino Valley Municipal Water District (District) is pleased to provide the following comments on the proposed recycled water policy currently under consideration by the State Water Resources Control Board (SWRCB).

The District applauds the SWRCB for your efforts to promote the safe use of recycled water in California. We believe that recycled water is an important resource for California and support the SWRCB's proposal to streamline the use of recycled water. While we support the goal of the SWRCB's proposed policy, we believe that there are a number of issues - most notably liability for the use of recycled water - with the proposed policy that need further refinement. To that end, we join the comments of the Association of California Water Agencies.

Once again, we strongly support the use of recycled water in a way that provides a clean, reliable and safe water supply for California. If you or your staff have any questions, please feel free to contact the District's General Manager, Randy Van Gelder, at (909) 387-9218.

Very truly yours,

C. Patrick Milligan
