

Recycled Water Research Workshop: Monitoring and Treatment Performance for Constituents of Emerging Concern

EDMUND G. BROWN JR.
GOVERNOR

MATTHEW RODRIQUEZ
SECRETARY FOR
ENVIRONMENTAL PROTECTION

State Water Resources Control Board

Wednesday October 28th, 2015
Day 2 – Treatment performance for CECs

Meeting Goals:

- To have a discussion among Water Board, drinking water, wastewater, and storm water agency managers, and research organizations on the strategies for addressing constituents of emerging concern (CECs) in recycled water.
- Identify and prioritize CEC monitoring and treatment research activities that will ensure water supplies from recycled water are protective of public health and the environment.

8:30 am	Transition to Day 2	Jeff Mosher NWRI
8:50 am	Overview: Assessing performance of treatment for CECs	Rhodes Trussell Trussell Technologies
9:30 am	Topic 1: Source control, operations, maintenance, and training.	Ben Stanford Hazen and Sawyer
10:00 am	BREAK	
10:15 am	Topic 2: Assessing CEC performance of currently used technologies	Andy Salvesson Carollo Engineers
10:45 am	Topic 3: Assessment of emerging and innovative technologies and monitoring strategies.	Karl Linden U. Colorado Boulder
11:15 am	Topic 4: Reliability and resiliency	Brian Pecson Trussell Technologies
11:45 am	Instructions for afternoon Breakout Sessions: <ul style="list-style-type: none">- 4 groups- Rotation between the 4 themes	Jeff Mosher NWRI
12:00 noon	Lunch (on site)	
1:00 pm	Breakout Session #1: Go to the room matching the first letter on your name tag code	Rooms A, B, C, D
1:30 pm	Breakout Session #2	Rooms A, B, C, D
