DIV OF WATER RIGHTS SACRAMENTO

PETITION FOR EXTENSION OF TIME

WATER USERS:

Application 30497A Permit 20905A

Water Code section 1396 requires an applicant to exercise due diligence in developing a water supply for beneficial use. The State Water Resources Control Board (SWRCB), in considering requests for extension of time, will review the facts presented to determine whether there is good cause for granting an extension of time to complete the project. Where diligence in completing the project is not fully substantiated, the SWRCB may set the matter for hearing to determine the facts upon which to base formal action relating to the permit. Formal action may involve:

1. Revoking the permit for failure to proceed with due diligence in completing the project.
2. Issuing a license for the amount of water heretofore placed to beneficial use under the terms of the permit.
3. Granting a reasonable extension of time to complete construction work and/or full beneficial use of water.

The time previously allowed in your permit within which to complete construction work and/or use of water has either expired or will expire shortly.

Please check below the action you wish taken on this permit.

- The project has been abandoned and I request revocation of the permit.

Signature
- Full use of water has been made, both as to amount and season, and I request license be issued.

Signature
- The project is not yet complete. I request the SWRCB's consideration of the following petition for an extension of time.

PETITION FOR EXTENSION OF TIME If START of construction has been delayed

Complete items 1, 2, and 3.

N/A - SWRCB issuance of Permit 20905A was already established for farming operations, later destroyed due to flood damage.

1. What has been done since permit was issued toward commencing construction? *See attachment 1(a).*

2. Estimate date construction work will begin. _____
3. Reasons why construction work was not begun within the time allowed by the permit.

"The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demands and cut your energy costs, see our web-site at: <http://waterrights.ca.gov>." Additional copies of this form and water right information can be obtained at www.waterrights.ca.gov.

PETITION FOR EXTENSION OF TIME
If construction work is proceeding

If construction work and/or use of water is proceeding but is not complete, an extension of time may be petitioned by completing items 4 through 16. Statements must be restricted to construction or use of water only under this permit.

4. A ten (10) - year extension of time is requested to complete construction work and/or beneficial use of water. (Indicate a period of time less than or equal to 10 years. Must be consistent with the time frame allowed in (California Code of Regulations sections 840 through 844)
5. How much water has been used? See progress report attached hereto. (Attachment 2) acre-feet/year _____ cfs
6. How many acres have been irrigated? 49
7. How many houses or people have been served water? None
8. Extent of past use of water for any other purpose. Agricultural use
9. What construction work has been completed during the last extension? This is the first extension requested.
10. Approximate amount spent on project during last extension period. \$ N/A
11. Estimate date construction work will be completed. 12/2016
12. Estimated year in which water will be fully used. 12/2016
13. Reasons why construction and/or use of water were not completed within time previously allowed. Flood damage and restoration project have interrupted organic farming irrigation on Property. See Attachment 1(a) and progress report (Attachment 2) detailing exigent circumstances in need for extension.

If the use of water is for municipal (including industrial) and irrigation supplies and is provided or regulated by public agencies and use of the water has commenced, but additional time is needed to reach full use contemplated, the following information must be provided.

14. What water conservation measures are in effect or feasible within the place of use?
Drip Irrigation is used when possible, by organic farmer.
15. How much water is being conserved or is it feasible to conserve using these conservation measures?
_____ acre-feet per annum. N/A
16. How much water per capita is used during the maximum 30-day period? _____ gpd. N/A

I (we) declare under penalty of perjury that the above is true and correct to the best of my (our) knowledge and belief.

Dated: January 30, 2008, at Carmel, California
