Greetings:

I urge you to consider that here are a large number of illegal diversions and little is being done about this. Tributary use is over allocated with permits; in addition, there are many illegal diversions of the tributary water and little is being done about it. The tributaries represent some of the water to the lower river that is being lost due to over-use.

I live in Sebastopol. Our only source of water is our city wells. I am very concerned that insufficient oversight of these leaks will lead to SCWA taking additional water from our mutual water source, the aquifer in the Santa Rosa Basin.

Thank you. Helen Shane, 327 Neva St., Sebastopol.
