Source: GIS data from Counties, acquired 2010, City of Lodi 2007, City of Manteca 2008

Note: min = minutes

- <sup>a</sup> Priority 1 calls include injury accidents, crimes in progress, and threats to public safety, etc. Priority 2 calls include disputes, crimes where suspects have left the scene, and semi-urgent matters. Priority 3 calls include routine complaints, cold reports of crime, and non-urgent matters.
- <sup>b</sup> City of Oakley average response times were unavailable; however, the city is served by the Contra Costa Sheriff Department; therefore, county data was utilized. Response times in the City of Oakley are anticipated to be better within the city limits than the unincorporated area (Thorson pers. comm. 2010).
- <sup>c</sup> The City of Sacramento Priority 1 calls are "Officer initiated emergency requests for help", and average response times were not available.
- <sup>d</sup> The California Department of Fish and Game, California Highway Patrol, and U.S. Coast Guard have jurisdiction across multiple counties and throughout the state. Staffing standards and average response times were not collected for these agencies.
- <sup>e</sup> The Solano County Sheriff's Department does not have established staffing goals (Margherio pers. comm. 2010).

Notes: Calrecycle = California Department of Resources Recycling and Recovery; cy = cubic yards; ACW = asbestos-containing waste

<sup>a</sup> “Permitted” indicates that a facility or site held a solid waste facility permit. “Exempt” indicates that an enforcement agency has granted an exemption from the requirement that a solid waste facility obtain a permit. Such an exemption may be granted if the facility falls within one of the classifications [14 CCR 18215(b)/27 CCR 21565] which may be exempted and all of the following findings are made: (1) the exemption is not against the public interest; (2) the quantity of solid waste is insignificant; or (3) the nature of the solid wastes poses no significant threat to health, safety, or the environment.

<sup>b</sup> “Active” indicates a facility/operation is currently accepting, handling, processing, or disposing waste. “Planned” indicates a facility is in the planning stages. It may be awaiting a permit and not yet accepting waste or it may be permitted but not yet constructed or accepting waste.

<sup>c</sup> Remaining Capacity is not a measurement applicable to facilities that are not associated with long-term disposal sites and activities (i.e., landfills). N/A is indicated for these types of facilities. Remaining capacity dates shown represent date of most recent estimate of remaining capacity as reported to the Financial Assurances Branch of Calrecycle annually by owner/operator of the facility.
