

Comment Letter – Revisions to Proposed Bay-Delta Plan Amendments

My name is Craig Scheiner. I was born in California 74 years ago and I've lived the last 72 years of my life in the San Francisco bay area. During that time the population in California has increased from 9 million to 40 million people and water usage has increased along with it. Today California uses more water than any other state. Because of this decade after decade river flow has been reduced, the delta has been degraded, our quality of life has suffered, and we are faced with repeated droughts.

Water is a public trust resource, meaning it belongs to the people of California. I ask that you support Alternative 4 which requires 50-60% of unimpaired flow, starting at 60% and satisfies the California Fish & Game Code 5937.

As board members you live here too. Please vote to preserve what you and all Californians have left.

Sincerely yours,
Craig Scheiner
