CERTIFIED MAIL NO:

Mr. Koua Yang:

NOTICE OF VIOLATION: FAILURE TO COMPLY WITH EMERGENCY CURTAILMENT REGULATION

Due to the extreme drought conditions that have developed throughout California, the State Water Board issued you a Curtailment Order on January 10, 2023. The Curtailment Order (see enclosed) required you to cease all diversions associated with the water right(s) listed on the reverse page and submit a Curtailment Certification response through our online portal by January 20, 2023, 10 days after receiving the Curtailment Order.

As of the date of this letter, the State Water Board, Division of Water Rights (Division) has not received a Curtailment Certification response for the water right(s) listed on the reverse page. This failure to submit a Curtailment Certification is a violation of State Water Board regulations that may subject you to formal enforcement and potential monetary penalties. (Water Code section 1846)

The Division is now preparing an Administrative Civil Liability Complaint (ACL Complaint) to issue you a potential fine for up to \$500 per day per water right for each day the certification(s) is/are not filed.

The Division will NOT issue the ACL Complaint if:

1. The Curtailment Certification Response(s) is/are submitted 14 days from the date of this letter. You can submit each response online at <https://public.waterboards.ca.gov/WRInfo> with the User ID(s) and Password(s) listed

E. JOAQUIN ESQUIVEL, CHAIR | EILEEN SOBECK, EXECUTIVE DIRECTOR

on the reverse page. A separate certification must be filed for each water right you own or manage. Do not combine information for multiple water rights on one response.

Or,

2. You provide proof to the Division that you did not own the property for the subject right(s).

If you are no longer the legal owner of the water right(s) listed, provide proof to the Division at the contact information provided below within 14 days of the date of this letter.

If you have questions concerning this matter, please contact either Lang Khang, Water Rights Senior Engineer at Lang.Khang@waterboards.ca.gov or Oxcar Macias, Water Resource Control Engineer at Oxcar.Macias@waterboards.ca.gov. You may also leave a message on the Water Rights Enforcement phone line at (916) 341-5342. Enforcement staff will contact you shortly afterward.

Sincerely,

Robert P. Cervantes, PE
Program Manager - Enforcement
Division of Water Rights
