Subject: Objection to proposed water restrictions

To whom it may concern:

As owners of property at Sea Ranch, we write to express our concern and strong objection to the changes proposed by the SWCRB. We are part time residents, and rent the house out through a local agency. It would be difficult to rent the house under the proposed new restrictions, which will adversely affect not only the real estate managers, but on the employees that they hire to maintain the property.

Clearly the value of The Sea Ranch properties would decline generally for this reason, as would the monies received by the county in property taxes. We believe that water use per capita at The Sea Ranch and the surrounding communities is low, and urge that this new proposal be withdrawn.

Sincerely

yours,

and Jack Kirsch
