Subject: Comment Letter-AB 2121 Policy
February 2010 Draft North Coast Instream Flow Policy

The SWRCB has proposed a policy that would have drastic negative impacts on The Sea Ranch water supply. It could leave The Sea Ranch without a water supply for days or even months each year. The proposed policy must be revised to require that economic and other impacts on EXISTING water users be taken into account and mitigated or avoided. As a first step, I request that the SWRCB extend the comment period. I also request that the SWRCB schedule a hearing/workshop in the northcoast region so that the citizens whose homes would be without water may be heard.
