Subject: On Behalf of The Sea Ranch

We are writing regarding the probable restrictions we at Sea Ranch, in Gualala, and Point Arena face regarding access to water. Our concerns are as follows:

- 1. Adequate water in the event of fire.*
- 2. Drastic decrease in property values - many of us are elderly and retired people, who count on our home sales paying for our care if and when the time comes.*
- 3. Economic impact in the area, affecting our neighbors in and around Gualala and Point Arena as a result of sales of homes and property vastly decreased due to unavailable water.*
- 4. The effect on the health and welfare of the tax-paying citizens of the North Coast.*

Please postpone the closure of the public comment period (currently noon March 26, 2010 for an extended period of 90 days. Please consider holding regional hearings on this matter and postponing the Public Hearing now scheduled for April 27, 2010 until after regional hearings.

Thank you for your consideration.
