Re AB2121

Noooo, you must not restrict the diversion from the Gualala River. I work at The Sea Ranch Water Company and live in Gulalala. Both depend on the diversion of the Gualala River. Without water, I will not have a job or enough water to live.

I am interested in living my life and could care less about the fish or wineries.

AB2121 is too general and each diversion should be looked at case by case. We are a very conservative community and want to remain that way.
