Dear Board,
I am very concern about the recommended policy on water usage in the sea ranch area, I live in sea ranch with my husband full time and it would be a great Borden for us and the community to be out of water for certain time period. I understand the preservation of other species but not at the cost of human life, we need water to live as much as the fish. please reconsider the proposed policy to provide water for sea ranch year around.
Thank you,

Massomeh I. Roberts
