Subject: SWRCB Instream Flow Policy and the Gualala River

To Whom it may Concern,

My wife have been owners at The Sea Ranch for 20 years and my parents before us, since 1969. The Sea Ranch has an excellent record of adhering to every new policy affecting the community and the health of the Gualala River.

We have significant concerns about your staff recommendations. We request that the policy not be adopted in its present form without allowing The Sea Ranch consideration for its conscientious and conservative rights to use our wells beneath the river.

Sincerely,

Richard & Kristine Thomure
