**Subject:** COMMENT LETTER AB2121 POLICY  
**CC:** <ecarrillo@sonoma-county.org>

Dear Sirs:

POLICY AB2121 obviously fails to consider the strong negative impact on current residents of the affected area. I and everyone in my community practice strong water conservation measures already, and because of our water system relying on the Gualala rivershed, the proposed policies would make it difficult or impossible for us to have affordable water access during much or most of the year. Effect on our property values would be catastrophic.

The simpleminded and ill-conceived policy should be revised with a more rational balance of concern for current residents and overall conservation goals.
