---

Dear Water Board,

I am a Moss Beach resident and member of the Pillar Point fishing community of California citizens in Half Moon Bay, whose business and family rely upon a vibrant Pacific Salmon fishery to feed our state and earn a living to pay our taxes, and keep our community strong.

I am also a lifelong recreational fisherman, who wants more wild and undammed rivers in California to create recreation for all.

Finally, I am an American, who wants obsolete destructive dams removed so there is still a planet left for my children.

Please remove the lower Klamath dams.

Sincerely,

Todd Enders  
887 Etheldore St  
Moss Beach, CA 94038
