Subject: Public comment on Klamath Dam removal
Date: Wednesday, February 6, 2019 10:20:02 PM

To whom it may concern,

I am a resident of Humboldt County and an ecological restorationist for the past two decades.

I have personally witnessed the decline of the Klamath River, the health of its waters and its salmon runs. I want to give my full support for the removal of the dams in order to attempt to reverse the decline of salmon runs and to restore natural flow regimes and water quality/quantity to the Klamath river ecosystem. I understand that there may be short term impacts to water quality after removing the dams.

I also feel that strong returns of salmon will be in the best interest of local Indian tribes who depend on the runs for subsistence and cultural needs.

Please continue to work towards making the Klamath Dam removal a reality.

Sincerely,

Kyle Keegan
