Subject: Scoping comment

All,

As you evaluate alternatives, the Shasta tribes respectfully ask you to consider the impact to Shasta cultural sites that are beneath the sediment at Copco and Iron Gate, and under the Iron Gate powerhouse.

The Agreements require our sacred sites to transfer to the state of California, in the event the dams are removed. This is unacceptable.

We are not parties to the agreements.

We will also submit written comments for the record.

Respectfully,
Sami Jo Difuntorum
